Lot 1878 – Reference should read S.3803 not S.3804

Lot 1706 – Since the publication of our catalogue, Mr Iúri Fernandes has raised the intriguing possibility that the Escudo offered here may be the specimen from the Regnault Collection, first illustrated in the Revue de la Numismatique Belge in 1861. That coin was subsequently offered as lot 1593 in the second part of the sale of the Regnault Collection, catalogued by Henri Hoffmann, 18–20 October 1875. Minor differences in the termination of the obverse legend are, however, apparent when comparing the engravings of 1861 and 1875 with the present specimen.
